of undoubted advantage both to agriculture and the State to educate the young farmers in such a manner that they may direct the intelligent application of labor so as to produce the best and greatest results.

The State of Kentucky has, at considerable expense, made a geological survey of the State. This survey has mapped out in a definition under the mineral treasures of the State, and in connection with the survey, many of the soils were analyzed.

Administered to 6,000 Rebel Prisoners

Great advantages were expected to result to agriculture from these analyses of the soils, but many things must yet be learned before we are enabled to reap the advantages so enthusiastically viewed in the prospective. An analysis of the soil may be compared to locating the route of a railroad; the fact that the route has been located and measures for its construction taken in the world, is of no practical advantage unless the road be built in reality, and then equipped with ample rolling stock.

 without a correct and definite knowl-

 elements discovered by analysis, the bare
 analysis is really of no practical value

 well enough perhaps to know all about the
 disease, but the patient is more interested
 in knowing what will cure him; and un-

WASHINGTON, June 6.

The suppressed testimony, surreptitiously published by Ben. Pittman, has greatly endangered the lives of the witnesses, some of whom are still in Canada. Dr. J. E. Merritt, one of the witnesses, is a cultured and gentlemanly physician, of excellent manner, a physician by profession, and evidently entirely truthful.

CINCINNATI, JUNE 7.

About eight o'clock on last evening a building on Longworth street, occupied as an armory by the National Guards, suddenly fell, burying a number of persons beneath its ruins, three of whom were killed and four fatally injured.

On motion of John W. Powell, the delegates were instructed to vote for the nomination of the Hon. Gen. S. Shanks in this convention. It was further ordered that the committee be authorized to have this meeting set apart for publication to the Louisville Democrat and Journal, and the Lexington Observer and Reporter.

Stirring speeches were made by Gen. Shanks, and Gen. S. Shanks, and the convention adjourned.

The Herald's correspondent in Columbia, the capital of South Carolina, represents that the chivalry of that State are rapidly accommodating themselves to the changed condition of affairs, under the new Government, and are becoming more gratified at the downfall of the rebellion, since, though it has left them impoverished, it has given them the long-coveted peace. The magnanimous Union sweep of Gen. Sherman through their State, has been hailed as a great blessing.

STANFORD, Ky., June 5, 1895.
Messrs. Editors: The following are the resolutions adopted by the Conservative Union Democrats of Lincoln county, who held a meeting at Stanford to-day, to appoint their first realization of the power of the National Government. The splendid success of that march destroyed their illusions in the anti-slavery institution of the South. Many of them are now glad to be considered citizens of the great republic.
